

URGENT: WIRE FRAUD WARNING

Dear [Client Name],

Cybercrime and wire fraud are on the rise. To protect your funds, please review the following security protocols before initiating any electronic transfer:

- **Verify Instructions:** Always call our office at a known, verified phone number to confirm wiring instructions before sending any money. Do not use phone numbers listed in an email.
- **Beware of Changes:** We will never send an email informing you of a "last-minute change" to our wiring instructions or banking details. If you receive such a message, it is likely a scam.
- **Confirm Receipt:** After you initiate a wire, call our office immediately to notify us so we can track the incoming funds.

If you receive any suspicious communication claiming to be from our firm, please contact us immediately.

Regards,

[Your Name/Company Name]
