RE: CEASE AND DESIST - Unlawful Drone Operations and Privacy Invasion

Dear [Name of Operator or "Drone Operator"],

This letter serves as formal notice to immediately cease and desist from operating any Unmanned Aircraft Systems (UAS), commonly known as drones, over or in the immediate vicinity of my private property located at:

[Your Full Address]

On [Date(s)], at approximately [Time(s)], a drone [Description of drone, e.g., white DJI quadcopter] was observed flying over my property at a low altitude. [Optional: I have captured video/photographic evidence of this occurrence and identified you as the operator].

Your actions constitute a direct violation of my privacy and property rights. Specifically, these operations involve:

- **Trespass:** Unauthorized entry into the airspace immediately above my land which interferes with my use and enjoyment of the property.
- **Invasion of Privacy:** The use of surveillance equipment (cameras/sensors) to monitor or record activities within my private residence and yard where there is a reasonable expectation of privacy.
- **Harassment/Nuisance:** The persistent noise and physical presence of the aircraft causing distress and disturbance.

I demand that you immediately stop all flight operations over my property. Be advised that I am documenting all future flights. If these incursions continue, I will be forced to take further action, which may include:

1. Filing a formal complaint with the Federal Aviation Administration (FAA).
2. Reporting the harassment and trespassing to local law enforcement.
3. Commencing a civil lawsuit for damages and injunctive relief.

I trust this notice will resolve the matter and that no further flights will occur. Please govern yourself accordingly.

Sincerely,

[Your Signature]
