Re: Freedom to Operate (FTO) Opinion regarding [Product Name/Project Code]

Dear [Name],

1. Introduction

You have requested our legal opinion regarding whether the manufacture, use, sale, or importation of your product, described as [Product Description] (the "Subject Product"), infringes any valid and enforceable utility patents currently held by third parties.

2. Scope of Search

We conducted a search of United States utility patents and published patent applications through [Database Name]. The search focused on the following technical features: [List Key Features]. The search was limited to patents active as of [Search Date].

3. Identified Patents

Our search identified the following patents of potential relevance:

- U.S. Patent No. [Number] ("[Short Title]")
- U.S. Patent No. [Number] ("[Short Title]")

4. Analysis and Non-Infringement Opinion

Based on our analysis of the claims of the identified patents and the specifications of the Subject Product:

- **U.S. Patent No. [Number]:** The Subject Product does not infringe this patent because it lacks the following element required by Claim 1: [Describe Missing Element].
- **U.S. Patent No. [Number]:** [Provide detailed reasoning for non-infringement or invalidity argument].

5. Conclusion

Based on the information provided and our research, it is our opinion that the Subject Product does not infringe any valid claim of the identified patents. Therefore, we believe you have freedom to operate with respect to the analyzed patents in the United States.

6. Limitations

This opinion is based on the Subject Product as described to us on [Date]. Any modifications to the design may require a new analysis. This search does not include pending applications that have not yet been published or foreign patent rights.

Sincerely,
