Re: Legal Opinion Regarding the Validity of U.S. Patent No. [Patent Number]

Dear [Client Name],

Pursuant to your request, we have conducted a prior art analysis and validity study of U.S. Patent No. [Number] (the "Subject Patent"), currently assigned to [Patent Owner]. This letter provides our formal legal opinion regarding the validity of the Subject Patent in view of the prior art identified during our search.

1. Executive Summary

Based on our analysis of the claims of the Subject Patent and the identified prior art references, it is our professional opinion that [Select: all / specific claims] of the Subject Patent are [Select: likely invalid / likely valid] under [Select: 35 U.S.C. § 102 / 35 U.S.C. § 103].

2. The Subject Patent

The Subject Patent, titled "[Patent Title]," was issued on [Issue Date] and lists [Inventor Name(s)] as the inventor(s). We have focused our analysis on independent claim(s) [Claim Numbers].

3. Identified Prior Art

We have evaluated the following primary references:

- **Exhibit A:** [Patent or Publication Number], "[Title]," published [Date].
- **Exhibit B:** [Patent or Publication Number], "[Title]," published [Date].

4. Invalidity Analysis

A. Anticipation (35 U.S.C. § 102): We believe Exhibit [A/B] constitutes a single prior art reference that describes every element of claim [Number], thereby rendering it anticipated.

B. Obviousness (35 U.S.C. § 103): Alternatively, the combination of Exhibit A and Exhibit B renders claim [Number] obvious to a person having ordinary skill in the art (PHOSITA) because [Brief Reason for Combination].

5. Conclusion

In view of the foregoing, it is our opinion that there is a high probability that the challenged claims would be found invalid by a court of competent jurisdiction or the Patent Trial and Appeal Board (PTAB).

This opinion is based on the information currently available and is limited to the specific legal issues addressed herein.

Sincerely,

[Attorney Signature]
