RE: Export Administration Regulations (EAR) Compliance Opinion for [Product/Project Name]

To [Recipient Name],

This letter provides a formal regulatory opinion regarding the export classification and compliance requirements for the following items (the "Items") under the U.S. Export Administration Regulations (EAR):

1. Description of Items: [Insert detailed description of hardware, software, or technology]

2. Jurisdiction and Classification:

Based on our technical review, the Items are subject to the jurisdiction of the U.S. Department of Commerce, Bureau of Industry and Security (BIS). We have determined the Export Control Classification Number (ECCN) to be: **[Insert ECCN, e.g., 5A002 or EAR99]**.

3. Reason for Control:

The Items are controlled for the following reasons: [Insert reasons, e.g., National Security (NS), Anti-Terrorism (AT), or N/A for EAR99].

4. License Requirements and Exceptions:

[Select one:]

- No license is currently required (NLR) for export to [Destination Country] provided no prohibited end-users or end-uses are involved.
- A license is required for export to [Destination Country] unless a License Exception, such as [Insert Exception, e.g., ENC or LVS], applies.

5. Screening and Restrictions:

The recipient is reminded that regardless of the ECCN, exports are prohibited to parties listed on the Consolidated Screening List (CSL) or for prohibited end-uses including nuclear, chemical/biological weapons, or missile proliferation.

6. Conclusion:

It is our opinion that the Items may be exported in accordance with the EAR provided that the

conditions of the assigned ECCN and applicable license exceptions are met. This opinion is based on the regulations in effect as of the date of this letter.

Sincerely,

[Signature]
