[Date]

To Whom It May Concern,

I am the treating [Job Title, e.g., Psychiatrist, Licensed Clinical Social Worker] for [Patient Name], and I have been providing care for this individual since [Date]. I am intimately familiar with their medical history and the functional limitations imposed by their mental health disability.

Under the Fair Housing Act, a person with a disability may request a reasonable accommodation for assistance animals. I am writing to formally document that [Patient Name] meets the definition of disability under this Act and requires the presence of multiple Emotional Support Animals (ESAs) to mitigate the symptoms of their condition.

Specifically, [Patient Name] requires [Number of Animals] animals, described as:

- [Animal 1 Species/Breed]
- [Animal 2 Species/Breed]

Each animal serves a distinct and necessary function in the patient's treatment plan. [Explain why one animal is insufficient, e.g., "The first animal provides constant tactile grounding for anxiety, while the second animal provides specific pressure therapy during nighttime panic attacks that the first animal is unable to perform."] The presence of these specific animals is necessary for [Patient Name] to have an equal opportunity to use and enjoy their dwelling.

I am available to verify this recommendation should you require further information regarding my professional credentials, though I do not authorize the release of specific medical records or private diagnostic details.

Sincerely,
