

URGENT: SECURITY BREACH AND DATA EXFILTRATION NOTICE

To the Board of Directors and Management of [Company Name],

This is a formal notification that your internal network has been compromised. We have successfully encrypted your critical servers and exfiltrated [Amount of Data, e.g., 500GB] of sensitive corporate and personal data.

The Stolen Data Includes:

- Client personally identifiable information (PII)
- Employee records and social security numbers
- Financial statements and tax audits
- Proprietary intellectual property and trade secrets

REGULATORY RISK WARNING

Under current data protection regulations, including **GDPR, CCPA, and [Other Local Acts]**, you are legally obligated to report this breach to the authorities within [e.g., 72 hours]. Failure to do so, combined with the public release of this data, will result in:

- Governmental fines exceeding [Currency/Amount]
- Class-action lawsuits from affected clients
- Irreparable damage to your brand reputation and stock value

OUR DEMANDS

To prevent the public release of this data on our "leak site" and to receive the decryption tool for your systems, you must pay a fee of [Amount] in Bitcoin (BTC).

Deadline: [Date and Time]

INSTRUCTIONS

1. Download the Tor Browser.
2. Visit the following address: [Link to Chat/Payment Portal]
3. Follow the instructions to complete the transaction.

WARNING: Do not contact the police or recovery firms. Do not attempt to decrypt files using third-party software; this will result in permanent data loss. If the deadline passes without payment, the data will be sold to your competitors and published online.

We await your contact.
