From: [Employee Name]

Subject: Return to Work Clearance - Clinical Laboratory Reagent Exposure

Dear [Recipient Name],

This letter serves as formal notification that [Employee Name] is cleared to return to their duties in the clinical laboratory effective [Date].

The employee was previously restricted from work following a hazardous exposure to [Name of Reagent/Chemical] on [Date of Incident]. Following a medical evaluation and the necessary observation period, it has been determined that the employee no longer poses a risk to themselves or others and has recovered from any acute symptoms related to the hazard.

Medical Clearance Status:

- Full Duty - No Restrictions
- Modified Duty (Details: [Insert Restrictions if applicable])

We have reviewed the relevant Safety Data Sheets (SDS) and confirmed that the employee is fit to resume handling laboratory reagents provided all standard Personal Protective Equipment (PPE) protocols are followed.

If you require further medical documentation or have questions regarding laboratory safety protocols, please contact [Contact Name/Department].

Sincerely,

[Signature of Medical Professional or Occupational Health Officer]
