

Date: [Insert Date]

Patient Name: [Insert Patient Name]

Date of Birth: [Insert DOB]

Dear [Patient Name],

We are writing to provide you with the results of your recent blood work performed on [Date of Test].

Your laboratory report indicates that your **Fasting Blood Glucose** level is [Insert Value] mg/dL. This result is above the normal reference range of [Insert Range, e.g., 70-99 mg/dL].

An elevated fasting glucose level suggests that your body may be having difficulty processing sugar effectively. This can be an indicator of prediabetes or diabetes. However, a single high reading does not always lead to a definitive diagnosis and may require further investigation.

Next Steps:

- Schedule a follow-up appointment with our office within [Number] weeks.
- We may require additional testing, such as an A1c test or a repeat glucose test.
- Please continue to monitor any symptoms such as increased thirst, frequent urination, or unexplained fatigue.

To schedule your follow-up or to discuss these results with a provider, please call our office at [Phone Number] or use our online patient portal.

Sincerely,

[Provider Name/Doctor Name]

[Clinic/Practice Name]
