

URGENT: CRITICAL IMAGING RESULTS

Date: [Insert Date]

To: [Patient Name]

Address: [Patient Address]

Date of Birth: [Patient DOB]

Dear [Patient Name],

This letter is to inform you that the results of your recent neurological imaging ([Type of Scan, e.g., MRI/CT Head]), performed on [Date of Scan], have been reviewed. These results contain findings that require immediate medical attention and follow-up.

Action Required:

- Please contact our neurology department immediately at [Phone Number] to discuss these results and your treatment plan.
- If you call after business hours, please ask to speak with the Neurologist on call.
- **If you experience sudden weakness, difficulty speaking, severe headache, or vision changes before we speak, please go to the nearest Emergency Room immediately or call emergency services.**

The ordering physician for this study is Dr. [Physician Name]. We have already initiated a referral/consultation process as necessary to address these findings promptly.

Your health and safety are our primary concern. We look forward to speaking with you as soon as possible.

Sincerely,

[Doctor Name/Department Name]
