Patient Name: [Patient Full Name]

Date of Birth: [DOB]

Patient ID: [ID Number]

Dear [Patient Name],

I am writing to provide you with the results of your recent Comprehensive Metabolic Panel (CMP) blood test performed on [Date of Lab Work].

The results of this panel show some values that are outside of the normal reference range. Specifically, the following levels were noted as abnormal:

- [Abnormal Value 1]: [Result] (Normal range: [Range])
- [Abnormal Value 2]: [Result] (Normal range: [Range])

While an abnormal result does not always indicate a serious condition, it is important that we discuss these findings to determine the next steps in your care. These results may require further testing, a change in medication, or a follow-up examination.

Please contact our office at [Phone Number] to schedule a follow-up appointment at your earliest convenience. If you have access to the patient portal, you may also view your full lab report and schedule an appointment online.

If you are experiencing any new or worsening symptoms, such as fatigue, swelling, or changes in urination, please let us know immediately.

Sincerely,

[Provider Name/Signature]
