Dear [Patient Name],

Re: Thyroid Function Test Results

I am writing to inform you that we have received the results of your recent blood tests performed on [Date of Blood Draw].

Your results for the following tests are within the normal reference range:

- TSH (Thyroid Stimulating Hormone)
- Free T4 (Thyroxine)
- [Other specific test if applicable]

These results indicate that your thyroid gland is currently functioning normally, and no further action or changes to your treatment plan are required at this time.

If you continue to experience symptoms or have any concerns, please schedule a follow-up appointment to discuss them further.

Sincerely,

[Doctor Signature/Name]
