Subject: Your Prenatal Vitamin Deficiency Test Results

Dear [Patient Name],

We have received the results of your recent blood work conducted on [Date of Test]. These tests were performed to monitor your essential vitamin and mineral levels during your pregnancy.

Summary of Results:

- **Folic Acid (B9):** [Normal / Low] - [Result Value]
- **Iron (Ferritin):** [Normal / Low] - [Result Value]
- **Vitamin D:** [Normal / Low] - [Result Value]
- **Vitamin B12:** [Normal / Low] - [Result Value]
- **Calcium:** [Normal / Low] - [Result Value]

Provider Comments and Recommendations:

[Insert specific instructions here, e.g., "Your Iron levels are slightly below the target range. Please begin taking the iron supplement as discussed."]

Next Steps:

- Continue taking your daily prenatal vitamin as prescribed.
- [Instruction 2, e.g., Schedule a follow-up lab in 4 weeks.]
- [Instruction 3, e.g., Increase intake of leafy greens and fortified cereals.]

If you have any questions regarding these results or experience any symptoms such as extreme fatigue or dizziness, please contact our office at [Phone Number] or message us through the patient portal.

Sincerely,
