Patient ID: [Patient ID Number]

Subject: CONFIDENTIAL - Laboratory Test Results

Dear [Patient Name],

This letter is to inform you that your recent laboratory tests for a standard Sexually Transmitted Disease (STD) panel have been completed. We are pleased to inform you that all results from this panel are **Negative**.

The following tests were included in this screening:

- Chlamydia: Negative
- Gonorrhea: Negative
- Syphilis (RPR): Non-reactive
- HIV (1/2 Ag/Ab): Non-reactive
- Hepatitis B: Negative
- Hepatitis C: Negative

Please note that these results reflect your health status at the time of testing. If you have had a potential exposure within the last few weeks, it may be necessary to repeat the screening at a later date due to the window period of certain infections.

We recommend continued regular screenings as part of your routine healthcare. If you have any questions regarding these results or would like to discuss preventative care, please contact our office at [Phone Number] or schedule a follow-up appointment through the patient portal.

Sincerely,

[Provider Name/Signature]
