

Date: [Date]

Dear [Patient Name],

We are writing to inform you that your recent lab results for the Sexually Transmitted Disease (STD) panel are now available for review.

Result Summary: NEGATIVE

This means that all tests performed in this panel (including [List Specific Tests, e.g., Chlamydia, Gonorrhea, Syphilis, and HIV]) returned a negative result. No evidence of these infections was detected at the time of your screening.

Important Reminders:

- **Window Period:** Please note that some infections may not show up on a test immediately after exposure. If you believe you were exposed recently, please consult your provider about follow-up testing.
- **Symptoms:** If you are currently experiencing any symptoms (such as discharge, pain, or sores), please contact our office even with a negative result.
- **Prevention:** Regular screening and protective measures are recommended for continued sexual health.

You can view the full laboratory report in the "Results" section of this portal.

If you have any questions or would like to discuss these results further, please send a secure message through the portal or call our office at [Phone Number].

Sincerely,

[Provider or Clinic Name]
