

[Date]

[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

We are writing to provide you with the results of your recent cervical cancer screening (Pap smear and HPV test) performed on [Date of Service].

Results:

- **Pap Smear:** Normal (Negative for intraepithelial lesion or malignancy)
- **HPV Test:** Negative

What this means:

Your results are normal. No abnormal cells were found, and the Human Papillomavirus (HPV) was not detected. These results indicate a very low risk of developing cervical cancer before your next scheduled screening.

Follow-up:

Based on current medical guidelines, you should have your next routine screening in [3 or 5] years. Our office will send you a reminder when it is time for your next appointment. However, if you experience any new symptoms such as unusual bleeding or pain, please contact us sooner.

A copy of these results has been placed in your medical record. If you have any questions, please call our office at [Phone Number].

Sincerely,

[Provider Name/Practice Name]
