RE: Lab Results for Pap Smear performed on [Date of Procedure]

Dear [Patient Name],

We are writing to inform you of the results of your recent Pap smear. We are pleased to report that your results were **normal** (negative for intraepithelial lesion or malignancy).

A normal result means that no abnormal cells were found on your cervix at this time. Based on current medical guidelines and your health history, your next routine screening is recommended in [Number] years.

Please note that while this test is an excellent screening tool, you should contact our office if you experience any new symptoms such as abnormal bleeding, pelvic pain, or other concerns before your next scheduled exam.

If you have any questions regarding this report, please call our office at [Phone Number] between the hours of [Clinic Hours].

Sincerely,

[Provider Name/Signature]
