

[Date]

[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

We are writing to inform you of the results of your recent Pap smear performed on [Date of Test].

The results of your test are **abnormal**. Please do not be alarmed, as an abnormal result does not necessarily mean you have cancer. It often means that there are minor cell changes or an infection that requires further evaluation or monitoring.

Based on these results, we recommend the following next step:

- Repeat Pap smear in [Number] months.
- Colposcopy (a closer examination of the cervix).
- HPV testing.
- Office consultation to discuss results.

Please call our office at [Phone Number] at your earliest convenience to schedule your follow-up appointment or to speak with a member of our medical team regarding these results.

Sincerely,

[Provider Name/Signature]
