**Subject: Results of Your Annual Breast Screening**

Dear [Patient Name],

We are writing to provide you with the results of your recent screening mammogram performed on [Date of Exam].

The results of your mammogram are **normal**. There were no signs of breast cancer or other abnormalities detected at this time.

While these results are encouraging, please remember that mammograms do not detect all breast cancers. It remains important to practice breast self-awareness. If you notice any new changes, such as a lump, skin changes, or nipple discharge, please contact your healthcare provider immediately, even if your mammogram was normal.

Unless you are contacted otherwise, we recommend that you continue with your routine annual screenings. Our office will send you a reminder when you are due for your next appointment in [Month/Year].

A copy of this report has been sent to your primary care physician, [Physician Name].

If you have any questions regarding these results, please contact our office at [Phone Number].

Sincerely,

[Radiologist Name/Department Name]
[Facility Name]
