[City, State, Zip Code]

Dear [Patient Name],

I am writing to provide you with the results of your recent breast biopsy performed on [Date of Procedure].

I am pleased to inform you that the pathology report shows the findings are **benign (negative for cancer)**. The tissue samples specifically showed [Insert specific benign diagnosis, e.g., fibroadenoma or fibrocystic changes], which is a non-cancerous condition.

No further surgical intervention is required at this time based on these results. However, it is important to continue with your routine breast health screenings as previously recommended.

Our office recommends the following follow-up plan:

[Insert follow-up plan, e.g., Repeat mammogram in 6 months / Return to annual screening]

A copy of this report has been sent to your primary care physician. If you have any questions or would like to discuss these results in more detail, please contact our office at [Phone Number].

Sincerely,

[Doctor Name]
