Dear [Patient Name],

I am writing to provide you with the results of your recent prostate biopsy performed on [Date of Procedure].

The pathology report shows that the tissue samples collected are **benign (non-cancerous)**. There was no evidence of prostate cancer found in the specimens examined.

The report noted the following findings:
[Insert specific finding, e.g., Benign prostatic tissue / Prostatitis / BPH]

While these results are very encouraging, it is still important to continue monitoring your prostate health. We recommend the following next steps:

- Schedule a follow-up PSA blood test in [Number] months.
- Maintain your regular check-up schedule.
- Contact our office if you experience new or worsening urinary symptoms.

A copy of the full pathology report is available upon request or via your patient portal. If you have any questions regarding these results, please contact our office at [Phone Number] to schedule a brief follow-up discussion.

Sincerely,

[Doctor's Signature]
