Subject: Important Information Regarding Your X-Ray Results

Dear [Patient Name],

We are writing to inform you that the results of your recent X-ray performed on [Date of Procedure] for [Body Part] are inconclusive. This means the images did not provide enough information for a definitive diagnosis at this time.

Inconclusive results can occur for several reasons, such as overlapping tissue, positioning, or the need for a more detailed view of the area. This does not necessarily mean there is a serious problem, but further evaluation is required to ensure an accurate assessment.

To follow up, the physician recommends the following next step:

- Repeat X-ray imaging
- Additional imaging (such as a CT scan or MRI)
- A follow-up consultation with [Physician Name]

Please contact our office at [Phone Number] to schedule your follow-up appointment or to discuss these results further. If you have already scheduled a follow-up, please keep that appointment as planned.

Sincerely,

[Physician/Provider Name]

[Practice/Clinic Name]
