Dear [Patient Name],

We are writing to inform you that we have received the results of your recent echocardiogram (ultrasound of the heart) performed on [Date].

The imaging has shown some findings that are outside of the normal range. Specifically, the report indicates: [Insert brief description of findings, e.g., mild heart valve leakage, thickened heart muscle, or reduced ejection fraction].

While these results require further attention, they are best discussed in the context of your overall health and symptoms. We would like to schedule a follow-up appointment to review these findings in detail, discuss what they mean for you, and determine the next steps in your care plan.

Next Steps:

- Please call our office at [Phone Number] to schedule a follow-up consultation.
- Continue taking all current medications unless instructed otherwise.
- [Optional: Additional instructions such as "Complete blood work prior to visit"].

If you experience any new or worsening symptoms such as chest pain, severe shortness of breath, or fainting before your appointment, please seek immediate medical attention or call 911.

Sincerely,

[Doctor Name]
