Dear [Patient Name],

We are writing to provide you with the results of your recent prenatal screening test performed on [Date of Test].

Result: Normal / Low Risk

The screening results indicate that your pregnancy is at a low risk for the specific chromosomal conditions tested, such as Down syndrome (Trisomy 21), Edwards syndrome (Trisomy 18), and Patau syndrome (Trisomy 13).

Please keep in mind that this is a screening test and not a diagnostic test. A "low risk" result means that the likelihood of these conditions being present is very low, but it does not guarantee the absence of all birth defects or genetic conditions.

We will review these results further during your next scheduled prenatal appointment. However, if you have any immediate questions or would like to discuss these findings in more detail, please feel free to call our office at [Phone Number].

Best regards,
