RE: Environmental Allergy Panel Results

Dear [Patient Name],

We are writing to provide you with the results of your recent environmental allergy panel conducted on [Date of Test].

The testing evaluated your sensitivity to common environmental triggers, including pollen, molds, dust mites, and animal dander. Based on the laboratory findings, your results are as follows:

Test Summary:

- **Positive Reactivity:** [List specific allergens, e.g., Ragweed, Dust Mites, Oak]
- **Negative Reactivity:** [List specific allergens or "All other tested items"]

Next Steps:

Based on these results, we recommend the following actions:

- [Recommended Treatment, e.g., Antihistamines, Nasal Sprays]
- [Environmental Control Measures, e.g., Air Purifiers, Waterproof Covers]
- [Follow-up Appointment Details]

A complete copy of your lab report is attached for your records. Please review these results and prepare any questions you may have for your next visit. If you experience a sudden worsening of symptoms or have immediate concerns, please contact our office.

Sincerely,
