RE: Respiratory Allergy Panel Results

Dear [Patient Name],

We are writing to provide you with the results of your recent Respiratory Allergy Panel testing performed on [Date of Test].

**Test Results Summary:**

[Insert Summary of Results - e.g., Positive for Dust Mites and Oak Pollen / All results returned Negative]

**Detailed Findings:**

[Insert Table or Detailed List of Allergens and Reaction Levels]

**What these results mean:**

The results indicate that you have [a sensitivity / no detected sensitivity] to the specific environmental allergens tested. These findings correlate with the respiratory symptoms you have been experiencing, such as [sneezing/congestion/coughing].

**Next Steps:**

- Review the attached educational materials regarding [Specific Allergen] avoidance.
- Continue your current medications as prescribed.
- Schedule a follow-up appointment to discuss a long-term treatment plan, which may include allergy shots (immunotherapy) or prescription changes.

If you have any immediate questions regarding these results, please contact our office at [Phone Number].

Sincerely,

[Provider Name]
