Dear [Patient Name],

The results of your recent stool sample analysis are now available. We are pleased to inform you that your test results returned within the **normal** range.

**Summary of Findings:**

- No harmful bacteria or pathogens were detected.
- No parasites or ova were identified.
- No occult (hidden) blood was found in the sample.
- The sample showed normal digestion and absorption markers.

At this time, no further action or follow-up testing is required regarding this specific analysis. However, if you are still experiencing symptoms or if your condition changes, please contact our office to schedule a follow-up appointment.

Thank you for choosing [Clinic/Hospital Name] for your healthcare needs.

Sincerely,
