RE: Post-Election Dispute and Objections Strategy Advisory

Dear [Client Name],

This letter provides a strategic framework for addressing potential post-election disputes and the formal process for filing objections regarding the [Insert Election Name] held on [Insert Election Date].

1. Executive Summary of Strategy

The primary objective is to preserve the integrity of the vote count while ensuring all legal avenues for protest are exhausted within the statutory deadlines. Our strategy focuses on three pillars: observation, documentation, and litigation.

2. Grounds for Objections

Based on preliminary reports, we have identified the following categories for formal objection:

- **Procedural Irregularities:** Failures in ballot handling or chain-of-custody protocols.
- **Voter Eligibility:** Disputes regarding the qualification of specific blocks of provisional or absentee ballots.
- **Tabulation Errors:** Technical discrepancies between machine counts and manual audits.
- **Statutory Violations:** Non-compliance with [State/Local] election codes by poll workers or officials.

3. Immediate Action Items

To support a formal challenge, the following steps must be completed by [Insert Deadline]:

- Collection of sworn affidavits from poll watchers and witnesses.
- Formal request for public records and precinct-level results tapes.
- Submission of a "Notice of Intent to Contest" to the Board of Elections.

4. Statutory Deadlines and Jurisdiction

The window for filing a formal contest is narrow. Please note the following dates:

- **Canvass Completion:** [Date]
- **Recount Request Deadline:** [Date]
- **Final Filing Date for Judicial Review:** [Date]

5. Recommended Legal Remedies

We advise pursuing the following remedies sequentially:

1. Administrative Protest at the Board level.
2. Petition for a Mandated Manual Recount in targeted precincts.
3. Injunctive Relief to prevent certification pending a full audit.

Please review this strategy and provide your authorization to proceed with the initial filings by [Insert Time/Date].

Sincerely,

[Signature]
