Dear [Patient Name],

I am writing to provide you with the results of your recent blood test conducted on [Date of Lab Work] to monitor the level of [Name of Medication] in your system.

Test Results:

- Your measured level: [Result Value]
- Target therapeutic range: [Reference Range]

Clinical Interpretation:

[Insert: Your level is within the target range / Your level is currently too high / Your level is currently too low].

Instructions:

[Insert: Continue your current dosage / Increase dosage to X / Decrease dosage to X / Discontinue use].

Next Steps:

Your next follow-up lab test should be completed on or around [Date]. Please contact our office if you experience any new side effects or have questions regarding this adjustment.

Sincerely,

[Provider Name/Signature]
