RE: Laboratory Results - Elevated Testosterone

Dear [Patient Name],

I am writing to provide you with the results of your recent blood work performed on [Date of Test].

Your laboratory report indicates that your testosterone level is higher than the standard reference range. Your result was [Patient Value] ng/dL, while the normal range is typically between [Reference Range] ng/dL.

Elevated testosterone levels can be caused by several factors, including certain medications, supplements, or underlying medical conditions. To ensure we manage your health appropriately, it is important that we discuss these findings in detail.

Please contact our office at [Phone Number] to schedule a follow-up appointment. During this visit, we will review your symptoms, discuss potential causes, and determine if further diagnostic testing or changes to your current treatment plan are necessary.

If you have already scheduled an appointment to discuss these results, please keep that scheduled time.

Sincerely,

[Doctor's Signature]
