[Date]

[Patient Name]
[Patient Address]
[City, State, Zip Code]

Dear [Patient Name],

I am writing to provide you with the results of your recent blood work performed on [Date of Test].

The results for the tumor marker test(s) ([List specific tests, e.g., CEA, PSA, CA-125]) are within the normal reference range. This indicates that the levels of these specific markers in your blood are currently at a baseline level.

Normal results are an encouraging sign; however, it is important to remember that tumor markers are only one part of your overall health assessment. These results should be viewed in conjunction with your physical exams and any other diagnostic imaging or tests previously ordered.

No further action is required at this time regarding these specific tests. We will continue with your regularly scheduled follow-up appointment on [Date of Next Appointment].

If you have any questions or would like to discuss these results in more detail, please contact our office at [Phone Number].

Sincerely,

[Doctor's Name]
[Practice Name]
