[Date]

[Patient Name]
[Patient Address]
[City, State, Zip Code]

Dear [Patient Name],

I am writing to provide you with the results of your recent blood work performed on [Date of Test].

The results for your [Name of Tumor Marker, e.g., PSA, CEA, CA-125] show a level of [Current Value]. For comparison, your previous result on [Date of Previous Test] was [Previous Value].

This indicates a **decreasing trend** in your tumor marker levels. This is a positive development and suggests that your current treatment plan is effective and that the condition is responding well.

Our next steps will be:

- Continue current treatment as prescribed.
- Schedule your next follow-up blood test for [Month/Date].
- [Additional Instruction].

Please remember that tumor markers are only one part of your overall clinical picture. We will continue to monitor these levels alongside your physical exams and imaging studies.

If you have any questions regarding these results, please contact my office at [Phone Number].

Sincerely,

[Doctor Name]
[Facility Name]
