Re: Routine Kidney Function Test Results

Dear [Patient Name],

We are writing to provide you with the results of your recent routine blood work performed on [Date of Test].

Your kidney function tests, including your Creatinine levels and Estimated Glomerular Filtration Rate (eGFR), have been reviewed by [Provider Name].

Result Summary: [Normal / Stable / Requires Follow-up]

Provider Comments:

[Insert specific comments here, e.g., Your results are within the normal range, and no further action is needed at this time.]

You may view your full laboratory report through the online patient portal or by requesting a printed copy from our office.

If you have any questions regarding these results, please contact our office at [Phone Number] or schedule a follow-up appointment.

Sincerely,

[Provider Name/Signature]
