

[Date]

[Patient Name]

[Patient Address]

[Patient Phone Number]

Dear [Patient Name],

I am writing to provide you with the results of your recent Magnetic Resonance Imaging (MRI) scan performed on [Date of Scan] at [Facility Name].

The radiologist's review of your images has identified some findings that are considered abnormal. Specifically, the report indicates: [Brief Description of Finding].

While these results require further investigation, please do not be alarmed. To ensure you receive the most specialized care and a detailed explanation of these findings, I have initiated a referral for you to see a Neurologist.

Referral Details:

Specialist Name: [Neurologist Name/Clinic Name]

Phone Number: [Phone Number]

Address: [Clinic Address]

The specialist's office will contact you to schedule an appointment, or you may call them directly at the number provided above. Our office has already forwarded your MRI images and the radiologist's report to their team.

Once you have met with the Neurologist, they will communicate their assessment and recommended next steps back to our office. If you have urgent questions before your consultation, please contact us at [Primary Doctor Phone Number].

Sincerely,

[Doctor Name, MD/DO]

[Practice Name]
