[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

According to our records, you are now due for your initial colonoscopy screening. Routine screening is recommended starting at age 45 for individuals at average risk to help prevent colorectal cancer or detect it early when it is most treatable.

A colonoscopy is a safe and effective procedure that allows a doctor to examine the lining of your colon and remove any polyps before they have a chance to turn into cancer.

Next Steps:

- Please call our office at [Phone Number] to schedule your appointment.
- If you have already had a colonoscopy elsewhere, please let us know so we can update your medical records.
- If you have questions regarding coverage, please contact your insurance provider.

Your health is our priority. We look forward to hearing from you soon.

Sincerely,

[Doctor's Name/Clinic Name]
