Subject: Important Health Milestone: Colonoscopy Screening Reminder

Dear [Patient Name],

Our records indicate that you have reached an important age milestone for colorectal cancer screening. According to current medical guidelines, individuals should begin regular colonoscopy screenings starting at age [45/50].

A colonoscopy is a preventative procedure that can detect and remove polyps before they turn into cancer. Early detection is the most effective way to prevent colorectal cancer and ensure long-term health.

To schedule your appointment or to discuss any questions you may have, please contact our office at [Phone Number] or visit our online portal at [Website URL].

If you have recently had a colonoscopy or have already scheduled one with another provider, please let us know so we can update your medical records.

Sincerely,

[Doctor Name/Clinic Name]
