- **Cost:** [Insert Price or Insurance Information]

Who Should Get Vaccinated?

The CDC recommends that everyone 6 months of age and older receive a yearly flu vaccine. It is especially important for high-risk individuals, including seniors, young children, and those with underlying health conditions.

Preventative Tips:

- Wash your hands frequently with soap and water.
- Avoid close contact with people who are sick.
- Stay home if you are experiencing fever or cough.
- Cover your mouth and nose when sneezing or coughing.

If you have any questions or are currently experiencing flu-like symptoms, please visit our clinic or contact us at [Phone Number].

Stay healthy,

The Medical Team at [Clinic Name]
