Dear [Patient Name],

Our records indicate that it is time for your routine preventative bone health assessment. Regular screenings are essential for monitoring your bone density and identifying early signs of conditions such as osteopenia or osteoporosis.

To ensure your skeletal health remains optimal, we recommend scheduling an appointment for the following:

- DEXA Bone Density Scan
- Vitamin D and Calcium Level Review
- Preventative Consultation

Early detection and lifestyle adjustments can significantly reduce the risk of fractures and improve your long-term mobility. Please contact our office at [Phone Number] or visit our online portal at [Website URL] to book your appointment.

If you have recently had these screenings performed elsewhere, please let us know so we can update your medical records.

We look forward to seeing you soon.

Sincerely,

[Provider Name/Clinic Manager]
