Welcome to the Gestational Diabetes Management Program

Dear [Patient Name],

Congratulations on your pregnancy. We are pleased to welcome you to our Gestational Diabetes Management Program. Our goal is to provide you with the tools, education, and support necessary to ensure a healthy pregnancy for both you and your baby.

As part of this program, you will work closely with a team of specialists, including endocrinologists, dietitians, and diabetes educators. Together, we will monitor your blood glucose levels and develop a personalized nutrition and activity plan.

Your Next Steps:

- **Initial Consultation:** Your first appointment is scheduled for [Date] at [Time].
- **Supplies:** Please bring your glucose meter and logbook if you have already received them.
- **Education:** You will be enrolled in a class covering meal planning and blood sugar monitoring techniques.

What to Expect:

During your first visit, we will review your recent lab results, discuss your current eating habits, and teach you how to track your daily glucose readings. Managing gestational diabetes is a team effort, and we are here to support you every step of the way.

If you have any immediate questions or need to reschedule your appointment, please contact our office at [Phone Number] or email us at [Email Address].

We look forward to working with you.

Sincerely,

[Provider Name/Signature]
