Re: Follow-up regarding laboratory results for [Date of Original Test]

Dear [Patient Name],

I am writing to follow up on your recent laboratory tests conducted on [Date].

The results of your [Name of Test] were returned as inconclusive. Please note that an inconclusive result does not necessarily indicate a health problem; it simply means that the laboratory was unable to obtain a definitive clear reading from the initial sample provided.

To ensure we have accurate information to guide your care, a secondary testing requisition has been issued. We require a new sample to repeat the analysis.

Next Steps:

- Please visit [Name of Lab/Facility] at your earliest convenience.
- Bring your photo ID and insurance card.
- [Insert specific instructions, e.g., Fasting required / No appointment necessary].

The requisition form has been [sent electronically to the lab / attached to this letter].

If you have any questions regarding this request or would like to discuss your symptoms further, please contact our office at [Phone Number].

Sincerely,

[Provider Name/Signature]
