

[Date]

[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

I am writing to provide you with the results of your recent Complete Blood Count (CBC) performed on [Date].

I am pleased to inform you that your results are unremarkable. This means that your red blood cell count, white blood cell count, and platelet levels are all within the normal range. There are no signs of anemia, infection, or other blood-related abnormalities based on this screen.

No further action or follow-up is required regarding these specific tests at this time. We will continue with your regularly scheduled health maintenance plan.

A copy of your lab report is enclosed for your records. If you have any questions or if you are experiencing any new symptoms, please feel free to contact the office.

Sincerely,

[Provider Name, Title]
