Subject: Your Lipid Panel Results

Dear [Patient Name],

I am writing to provide you with the results of your recent blood work performed on [Date of Test].

Your lipid panel, which measures your cholesterol levels, has returned within the normal range. These results indicate that your total cholesterol, LDL (bad cholesterol), HDL (good cholesterol), and triglycerides are currently at healthy levels. This is excellent news regarding your cardiovascular health.

**Your Results:**

- Total Cholesterol: [Value] (Normal: < 200 mg/dL)
- LDL Cholesterol: [Value] (Normal: < 100-130 mg/dL)
- HDL Cholesterol: [Value] (Normal: > 40-60 mg/dL)
- Triglycerides: [Value] (Normal: < 150 mg/dL)

At this time, no changes to your current treatment plan or medications are necessary. I encourage you to continue maintaining a healthy lifestyle through a balanced diet and regular physical activity to keep these levels stable.

We will continue to monitor these levels during your routine annual physical exams. If you have any specific questions regarding these results, please feel free to contact our office or schedule a follow-up appointment.

Sincerely,

[Provider Name]
