Subject: Follow-up: Monitoring Your New Diabetes Medication

Dear [Patient Name],

This letter is a follow-up regarding the new medication prescribed for your diabetes management on [Date]. As you begin this treatment, it is important that we monitor how your body responds to the medicine.

Please review the following list of common side effects and check if you have experienced any of these since starting your new regimen:

- Nausea or upset stomach
- Dizziness or lightheadedness
- Unusual fatigue or sleepiness
- Skin rash or itching at injection sites
- Episodes of low blood sugar (shakiness, sweating, confusion)
- Changes in appetite or weight

Action Required:

Please contact our office at [Phone Number] or via the patient portal if you are experiencing any persistent side effects. If you experience severe symptoms such as difficulty breathing, swelling of the face, or extreme abdominal pain, please seek emergency medical care immediately.

We would like to schedule a brief check-in appointment or telehealth call on [Proposed Date/Time] to review your progress and adjust your dosage if necessary.

Thank you for your commitment to managing your health.

Sincerely,

[Doctor/Provider Name]
