Re: Follow-Up on Second Opinion Pathology Review for [Patient Name]  
Date of Birth: [DOB]  
Medical Record Number: [MRN]

Dear Dr. [Doctor's Last Name],

I am writing to follow up regarding the second opinion pathology review of my biopsy results from [Date of Original Biopsy]. As previously discussed, the original slides were sent to [Name of Second Institution/Pathologist] for an independent evaluation.

I have received the consultant's report, which [matches / differs from] the initial diagnosis. I have enclosed a copy of the second opinion report for your records. Specifically, I would like to discuss the following points during our next appointment:

- The interpretation of the [Specific Tissue/Marker] results.
- How any discrepancies between the two reports impact my current treatment plan.
- If any further testing or specialized staining (such as IHC) is now recommended.

Please let me know if you have received the electronic version of this report from the pathology department or if you require any additional documentation before our meeting.

I look forward to hearing your thoughts on these findings and discussing the next steps in my care. I can be reached at [Phone Number] to schedule a time to speak.

Sincerely,

[Your Signature]
