

[Date]

[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

We are writing to follow up on your recent bone density scan (DEXA scan) performed on [Date of Scan].

After reviewing the imaging, the results are currently inconclusive. This means that the scan did not provide a clear enough picture to accurately determine your bone mineral density or your risk level for osteoporosis at this time. This can sometimes occur due to [Reason, e.g., positioning, underlying hardware, or anatomical variations].

To ensure we have the most accurate information regarding your bone health, we recommend the following next step:

- [Option 1: Repeat the scan at a later date]
- [Option 2: Schedule a different type of imaging, such as a CT scan or X-ray]
- [Option 3: Schedule an in-office consultation to discuss clinical symptoms]

Please contact our office at [Phone Number] to schedule your follow-up appointment or to speak with a member of our medical team if you have any questions regarding these results.

Sincerely,

[Physician Name/Provider Name]
