[Patient Name]

[Patient Address]

[City, State, Zip Code]

Dear [Patient Name],

This letter is to provide you with the results of your recent allergy testing panel conducted on [Date of Test].

Test Results:

The panel indicates that you have tested positive for sensitivities to the following allergens:

- [Allergen 1]
- [Allergen 2]
- [Allergen 3]

Based on these results and your clinical history, we would like to discuss **Immunotherapy (Allergy Shots/Drops)** as a long-term treatment option. Unlike over-the-counter medications that manage symptoms, immunotherapy works to desensitize your immune system to specific triggers over time.

Next Steps:

We recommend scheduling an Immunotherapy Consultation to review:

- The customized formulation of your allergy serum.
- The schedule for the build-up and maintenance phases.
- Safety protocols and expected outcomes.

Please contact our office at [Phone Number] to schedule this appointment or to ask any questions regarding these results.

Sincerely,

[Provider Name/Signature]
