Subject: Important Reminder Regarding Earthquake Insurance Coverage

Dear [Policyholder Name],

Following the recent seismic activity and tremors felt in our area, we want to ensure that your property is adequately protected.

Our records indicate that your current homeowners policy does not include coverage for damage caused by earthquakes. Standard policies typically exclude losses resulting from earth movement, including shaking, landsliding, or sinkholes.

While the recent tremor may have been minor, it serves as a reminder of the potential risks. We offer Earthquake Insurance endorsements that can cover:

- Structural damage to your home
- Replacement of personal belongings
- Loss of use/additional living expenses if your home becomes uninhabitable

If you are interested in receiving a quote or reviewing the cost of adding this protection, please contact our office at [Phone Number] or reply to this email.

Your safety and peace of mind are our priority. We look forward to assisting you.

Sincerely,

[Agent Name]
