Subject: Insurance Coverage Options and Support for Your Teen Driver

Dear [Parent/Guardian Name],

Adding a teenage driver to your auto insurance policy is a significant milestone. We are writing to provide you with information regarding coverage options and the support tools we offer to ensure your young driver stays safe on the road while keeping your premiums manageable.

### **Coverage Options and Discounts:**

- **Good Student Discount:** Drivers maintaining a "B" average or higher may be eligible for reduced rates.
- **Driver Training Credits:** Completion of an approved driver education course can lower your premium.
- **Student Away at School:** If your teen is heading to college without a car, you may qualify for a significant discount.
- **Telematics Programs:** Using a mobile app or plug-in device to monitor safe driving habits can lead to personalized savings.

### **Safety Support and Resources:**

To support your teen's development as a responsible driver, we offer a "Parent-Teen Driving Contract" and access to online safety modules. We also recommend reviewing your liability limits to ensure your family is fully protected during this transition.

If you would like to discuss a customized quote or have questions about which safety features qualify for discounts, please contact our office at [Phone Number] or [Email Address].

We look forward to helping your family navigate this new journey safely.

Sincerely,

[Agent Name]
