**RE: MANDATORY UPDATE - POLLUTION LIABILITY EXTENSION
ENDORSEMENT**

Dear Policyholder,

This letter serves as formal notice regarding a mandatory update to your insurance policy. We are adding the **Pollution Liability Extension Endorsement** to your coverage, effective as of [Insert Effective Date].

What is changing?

Previously, your policy may have contained broad exclusions regarding pollutants. This mandatory endorsement extends limited liability coverage for specific sudden and accidental pollution incidents that occur on your premises, subject to the terms and limits defined in the attached document.

Why is this happening?

This update is being implemented to ensure your coverage aligns with current regulatory requirements and provides enhanced protection against unforeseen environmental liabilities.

What do you need to do?

No action is required on your part. This endorsement is automatically being applied to your policy. We recommend that you review the enclosed endorsement document carefully and file it with your existing policy records.

If you have any questions regarding how this endorsement affects your premium or coverage limits, please contact your insurance agent or our customer service department at [Insert Phone Number].

Sincerely,

[Insert Name/Department]

[Insert Company Name]
