

Subject: Urgent Security Update: Enhancing Your E-Commerce Protection Against Ransomware

Dear [Customer Name],

At [Company Name], the security of your online business and customer data is our top priority. As ransomware attacks targeting e-commerce platforms become increasingly sophisticated, we are taking proactive steps to ensure your store remains protected.

We are writing to inform you that we are upgrading your account with enhanced Ransomware Protection features. These updates include:

- **Real-time Threat Detection:** Improved monitoring to identify and block suspicious file encryption attempts.
- **Automated Secure Backups:** Frequent, isolated backups to ensure rapid recovery in the event of an incident.
- **Advanced Firewall Protocols:** Strengthening your storefront against unauthorized access and malware injection.

### What do you need to do?

No immediate action is required on your part. These upgrades will be deployed automatically on [Date/Time]. You may experience a brief period of maintenance lasting no more than [Number] minutes during this window.

To further secure your account, we highly recommend the following best practices:

- Enable Two-Factor Authentication (2FA) for all staff accounts.
- Ensure all third-party plugins and themes are updated to their latest versions.
- Review your access logs regularly for unrecognized activity.

If you have any questions regarding these security enhancements, please contact our support team at [Support Email Address] or visit our Security Center at [Link].

Thank you for being a valued partner.

Best regards,

[Your Name/Department]
